

MODULE 3

HOW TO USE RESCUE™ PRODUCTS

A one-step solution to simplify your daily cleaning and disinfection tasks

START

HOW TO USE RESCUE™ PRODUCTS

Scrub-a-dub-dub...

If you take a moment to think about it, you do a lot of cleaning and disinfecting every day in your facility. Like, a lot.

You might have many cleaning and disinfectant products floating around, making it hard to manage inventory and to choose a suitable product for a particular task.

CAN WE MAKE THIS EASIER?

Click on the blue buttons throughout the module to learn more!

YES!

Consider an ALL-IN-ONE SOLUTION.

HOW TO USE RESCUE™ PRODUCTS

Rescue™

Your ALL-IN-ONE **CLEANING** and **DISINFECTING** Solution.

We learned about the **7 Steps to Good Infection Control** in Module 1 and **Choosing the Ideal Disinfectant** in Module 2.

Now, let's take a closer look at how the **Rescue™** family of products can streamline and simplify the daily cleaning and disinfection tasks at your facility!

HOW TO USE RESCUE™ PRODUCTS

The All-In-One Family

The family of **Rescue™** disinfectants -all powered by **Accelerated Hydrogen Peroxide®** - provides flexible options to suit the needs of your facility.

Team Concentrate Strategic and Calculated

Click on the round buttons throughout the module to learn more!

Concentrate

Set your own dilution to suit your specific cleaning and disinfection task.

Team Ready to Use

Ready to get to it!

Ready to Use (RTU) Liquids and Wipes

Convenient formats that are readily available for use.

HOW TO USE RESCUE™ PRODUCTS

Don't be a Disinfection Delinquent!

Proper disinfection requires following the product label instructions. Let's meet some common misuse culprits.

HOW TO USE RESCUE™ PRODUCTS

Disinfection Delinquent #1

The "GUESSTIMATOR"

Difficulty concentrating ... on concentration.

VIOLATIONS

- Eyeballing dilution mixtures
- Topping off diluted disinfectant bottles

CORRECTIVE ACTION

Stop the guessing and follow these two rules:

Click on each button to learn more!

RULE 1

ALWAYS MEASURE WHEN DILUTING

Incorrect measurements or using less disinfectant in an attempt to save money can lead to a weak, ineffective disinfectant solution.

RULE 2

USE A CLEAN AND DRY EMPTY BOTTLE FOR DILUTING SOLUTION

Mixing old and new disinfectant can lead to an over diluted, inactive mixture, which may be less effective.

Don't forget to label your bottle to meet OSHA requirements!

HOW TO USE RESCUE™ PRODUCTS

Tips on using Rescue™ Concentrate

TOOLS

Take away the guesswork, for a dependable dilution.

PRECISE Indicator Strips

Verify the dilution of your AHP® disinfectant solution.

TIMES

Tough on hard-to-kill germs in half the time of competitive chemistries.

1:64 @ 5 minutes for daily use

1:16 @ 5 minutes for outbreaks or high-risk areas

HOW TO USE RESCUE™ PRODUCTS

Disinfection Delinquent #2 The “COMPULSIVE DRYER”

Unable to let things dry on their own.

VIOLATIONS

- Wiping a surface dry too soon after applying the disinfectant

CORRECTIVE ACTION

HOW TO USE RESCUE™ PRODUCTS

Disinfection Delinquent #2 The “COMPULSIVE DRYER”

Put down that towel and follow these rules:

RULE 1

TO DISINFECT, YOU CAN'T IGNORE CONTACT TIMES.

Remember, disinfectants need to remain **WET** on a surface for the appropriate contact time to be effective.

WET for entire contact time

RULE 2

YOU HAVE CHOICES! FIND A SOLUTION THAT WORKS.

For surfaces that you need to disinfect in a hurry (e.g., exam tables), make sure to use a disinfectant with a short contact time.

HOW TO USE RESCUE™ PRODUCTS

Tips on using Rescue™ RTU

Ready to Use Liquids

1 minute

- Virucidal
- Bactericidal
- Fungicidal

30 seconds

- Soft surface sanitizer

Ready to Wipes

1 minute

- Virucidal*
- Bactericidal
- Fungicidal

*5 minutes for Parvovirus.

HOW TO USE RESCUE™ PRODUCTS

The One for the Job?

While all Rescue™ products are compatible with hard, non-porous surfaces, here's a guide to help you choose an optimal option for your cleaning and disinfection tasks.

Small and delicate jobs

Rescue™ Wipes

Ideal for delicate or electronic devices and equipment (or if you need to disinfect something quickly!)

- Keyboards
- Computer mice
- Office phones
- Exam tables
- Stethoscopes
- Non-critical medical equipment
- Doorknobs and handles
- Light switches
- Pens and clipboards

Medium sized jobs

Rescue™ Wipes or Rescue™ Ready to Use (RTU) Liquids

Ideal for most devices, equipment and surfaces.

- Grooming tools
- Leashes
- Stethoscopes
- Exam tables
- Desks
- Non-critical medical equipment
- Food and water bowls
- Surgical suites
- Small animal housing

Large jobs

Rescue™ Concentrate

Ideal for large tasks.

- Floors
- Kennels
- Surgical suites
- Transportation vehicles
- Play areas

HOW TO USE RESCUE™ PRODUCTS
